SKILLS

Frontend :

Proficient in creating responsive and dynamic web interfaces using React.js, leveraging a strong command of modern JavaScript (ES6+) features. Well-versed in HTML5 and CSS3, I excel in building user-friendly and visually appealing web applications.

Backend :

Experienced in server-side development with Node.js, focusing on asynchronous programming and API integration. Proficient in using Express.js, I build scalable back-end services, manage routing, and implement middleware effectively.

Databases :

Have good knowledge of MySQL for designing relational databases, writing optimized queries, and managing data efficiently. I am also familiar with MongoDB for handling NoSQL databases, including basic data modeling and performing CRUD operations.

PROJECTS

ElectronicHUB
